1. Jasmine 20

Front Panel Buttons

➤ The product colour and shape may vary depending on the model.

1 SOURCE

Toggles between all the available input sources (TV - Ext. - AV - S-Video - PC). In the on-screen menu, use this button as you use the **ENTER**  button on the remote control.

2 MENU

Press to see an on-screen menu of your TV's features.

3 + -

Press to decrease or increase the volume. In the on-screen menu, use the +  - buttons as you use the  and  buttons on the remote control.

4 < C/P >

Press to change channels.

In the on-screen menu, use the < **C/P** > buttons as you use the  and  buttons on the remote control.

(Without the Remote Control, you can turn on the TV by using the Channel buttons.)

5 Speakers

6 (Power)

Press to turn the TV on and off.

Power Indicator

Blinks and turns off when the power is on and lights up in stand-by mode.

Remote Control Sensor

Aim the remote control towards this spot on the TV.

1. Jasmine 20 Rear Panel Jacks

❶ Connecting an Aerial or Cable Television Network

To view television channels correctly, a signal must be received by the set from one of the following sources:

- An outdoor aerial / A cable television network / A satellite network

❷ Connecting External A/V Devices

- Connect RCA (optional) or S-VIDEO cable (optional) to an appropriate external A/V device such as VCR, DVD or Camcorder.
- Connect RCA audio cables (optional) to "L - AUDIO - R" on the rear of your set and the other ends to corresponding audio out connectors on the A/V device.
- Headphone may be connected to the headphone output (❷) on the rear of your set. While the head phone is connected, the sound from the built-in speakers will be disabled.

❸ Connecting Set-Top Box, VCR or DVD

- Connect the VCR or DVD SCART cable (optional) to the SCART connector of the VCR or DVD.
- If you wish to connect both the Set-Top Box and VCR (or DVD), you should connect the Set-Top Box to the VCR (or DVD) and connect the VCR (or DVD) to your set.

❹ Connecting Computer

- Connect the D- Sub cable (optional) to "PC IN (PC)" on the rear of your set and the other end to the Video Card of your computer.
- Connect the stereo audio cable (optional) to "PC IN (AUDIO)" on the rear of your set and the other end to "Audio Out" of the sound card on your computer.

❺ Kensington Lock

- The Kensington lock (optional) is a device used to physically fix the system when used in a public place.
- If you want to use a locking device, contact the dealer where you purchased the TV.
- The place of the Kensington Lock may be different depending on its model.

2. Jasmine 20 Remote Control

- ❶ Television Standby button
- ❷ Number buttons for direct channel access
- ❸ One/Two-digit channel selection
- ❹ : Volume increase
: Volume decrease
- ❺ Temporary sound switch-off
- ❻ Selects the TV mode directly
- ❼ Displays the main on-screen menu
- ❽ Sound effect selection
- ❿ Previous channel
- ⓫ : Next channel
: Previous channel
- ⓬ Available source selection
- ⓭ Use to see information on the current broadcast
- ⓮ Exit the on-screen menu
- ⓯ Control the cursor in the menu
- ⓰ Automatic Power-off
- ⓱ Picture effect selection
- ⓲ Sound mode selection

Teletext Functions

- ⓳ Teletext hold
- ⓴ Exit from the teletext display
- ⓵ Teletext index
- ⓶ Teletext sub page
- ⓷ Teletext display/mix both teletext information and the normal broadcast
- ⓸ Fastext topic selection
- ⓹ : Teletext next page
: Teletext previous page
- ⓺ Teletext mode selection (LIST/FLOF)
- ⓻ Teletext reveal
- ⓼ Teletext store
- ⓽ Teletext size selection

- The performance of the remote control may be affected by bright light.
- For details, refer to further instructions.

3. Specification

Model Name	LE20S8
Panel	
Size	20" Diagonal (4:3)
Display Size	408.0 (H) x 306.0 (V) mm
Pixel Pitch	0.51 (H) x 0.51 (V) mm
Frequency	
Horizontal / Vertical	28 ~ 47 kHz / 50 ~ 75 Hz
PC Resolution (Optimum)	640 x 480 @ 60Hz
Dimension (WxDxH)	
Body	479.0 x 74.7 x 436.4 mm
With stand	479.0 x 226.0 x 463.0 mm
Weight	
With stand	7.45 kg (16.42 lbs)
Environmental Considerations	
Operating Temperature	10 °C to 40 °C (50 °F to 104 °F)
Operating Humidity	10 % to 80 %, non-condensing
Storage Temperature	-20 °C to 45 °C (-4 °F to 113 °F)
Storage Humidity	5 % to 95 %, non-condensing

4. Using the TELETEXT Feature

Teletext Decoder

Most set channels carry “ teletext ”, pages of written information that provide information such as:

- ◆ *Television programme times.*
- ◆ *News bulletins and Weather forecasts.*
- ◆ *Sports results.*
- ◆ *Subtitles for the hard of hearing.*

The teletext pages are organized according to six categories:

Part	Contents
A	Selected page number.
B	Broadcasting station identity.
C	Current page number or search status.
D	Date and time.
E	Text.
F	Status information.

4. Display the Teletext Information

You can display teletext information at any time, but signal reception must be good. Otherwise:

- ◆ *Information may be missing.*
- ◆ *Some pages may not be displayed.*

To activate the teletext mode and display the contents page:

- 1.** Using the **P** () or **P** () button, select the channel providing the teletext service.
- 2.** Press the **TTX/MIX** () button to activate the teletext mode.
 - The contents page is displayed. It can be redisplayed at any time by pressing the **MENU** () button.
- 3.** Press the **TTX/MIX** () button again.
 - The actual broadcast will be displayed simultaneously with the teletext page on the screen.
- 4.** Press the **TV**() button again to exit from the Text display.
 - If any broken character appears while Text is being viewed, make sure that the Text language is identical with the language in the "Setup" menu mode. If both languages are different, select the same language with the Text language on the "Setup" menu.

4. Selecting a Specific Teletext Page

Press the number buttons on the remote control to enter the page number directly:

1. Enter the three-digit page number listed in the contents by pressing the corresponding numeric buttons.
2. If the selected page is linked with several secondary pages, the secondary pages are displayed in sequence. To freeze the display on a given page, press the **←** (). Press the **←** () button again to resume.
3. Using the various display options:

To display...	Press the...
Both teletext information and the normal broadcast	TTX/MIX ( / )
Hidden text (answers to quiz games, for example)	INFO ()
The normal screen	INFO ()
A secondary page, by entering its 4-digit number	DUAL I-II ()
The next page	P  ()
The previous page	P  ()
Double-size letters in the:	()
• Upper half of the screen	• Once
• Lower half of the screen	• Twice
Normal screen	• Three times

4. Using Fasttext to Select a Teletext Page

The various topics included in the teletext pages are colour-coded, and can be selected by pressing the coloured buttons on the remote control.

1. Display the teletext contents page by pressing the TTX/MIX () button.
2. Press the coloured button corresponding to the topic that you wish to select (The available topics are listed on the status information line).
3. Press the Red button to display the previous page.
Press the Green button to display the next page.
4. Press the TV () button again to exit from the Text display.

4. Storing Teletext Pages

You can store up to four teletext pages to display them later at leisure.

1. Select the LIST mode using the **SOURCE** () button.
 - The **SOURCE** () button is used to switch between the LIST and FLOF modes.
2. Press the coloured button corresponding to the page that will be replaced.
3. Enter the new page number using the numeric buttons.
4. Repeat steps 2 and 3 for each page to be stored, using a different coloured button.
5. Press the **SLEEP** () button until the corresponding blocks blink.

English-17

5. Signal Connections and Pin Assignments

If the monitor signal cable is disconnected, the monitor starts the 'Self-Test' function

15pin D-sub connector

Pin Number	Monitor Side of the 15-Pin Side Signal Cable
1	Video-Red
2	Video-Green
3	Video-Blue
4	GND
5	DDC-return
6	GND-R
7	GND-G
8	GND-B
9	DDC +5V
10	GND-sync/self-test
11	GND
12	DDC data
13	H-sync
14	V-sync
15	DDC clock

6. Display Modes

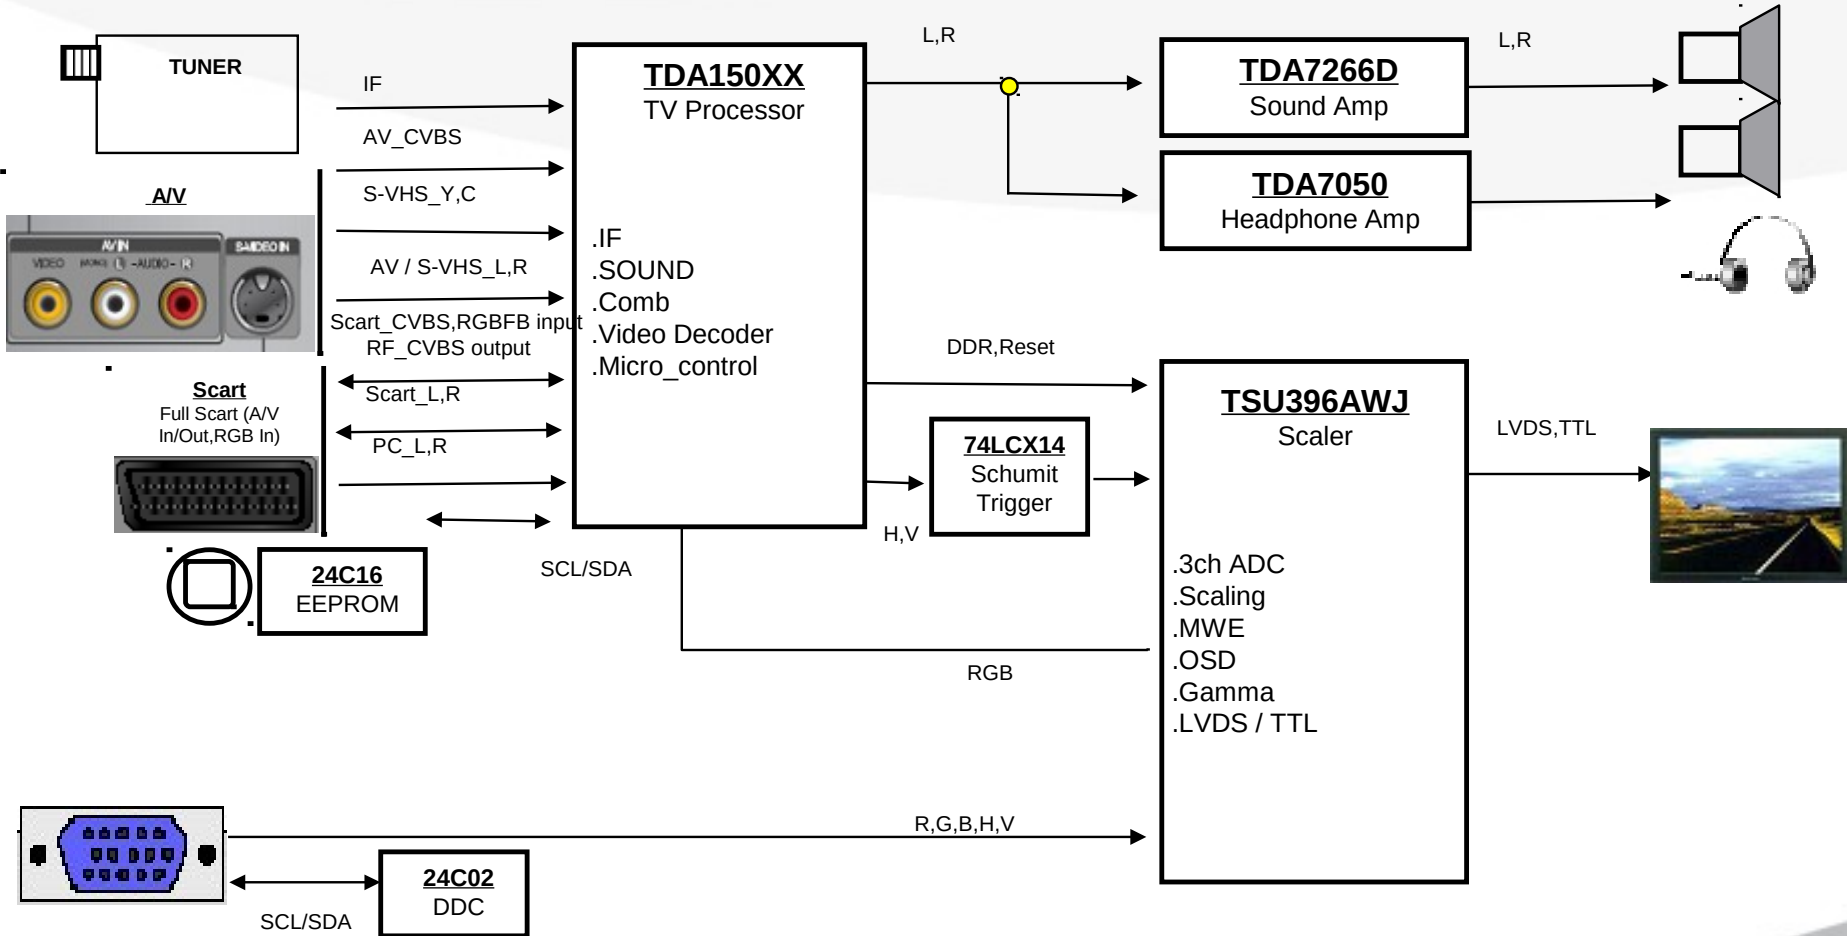

Both screen position and size will vary depending on the type of PC monitor and its resolution.

The resolutions in the table are recommended. (All resolutions between the supported limits are supported)

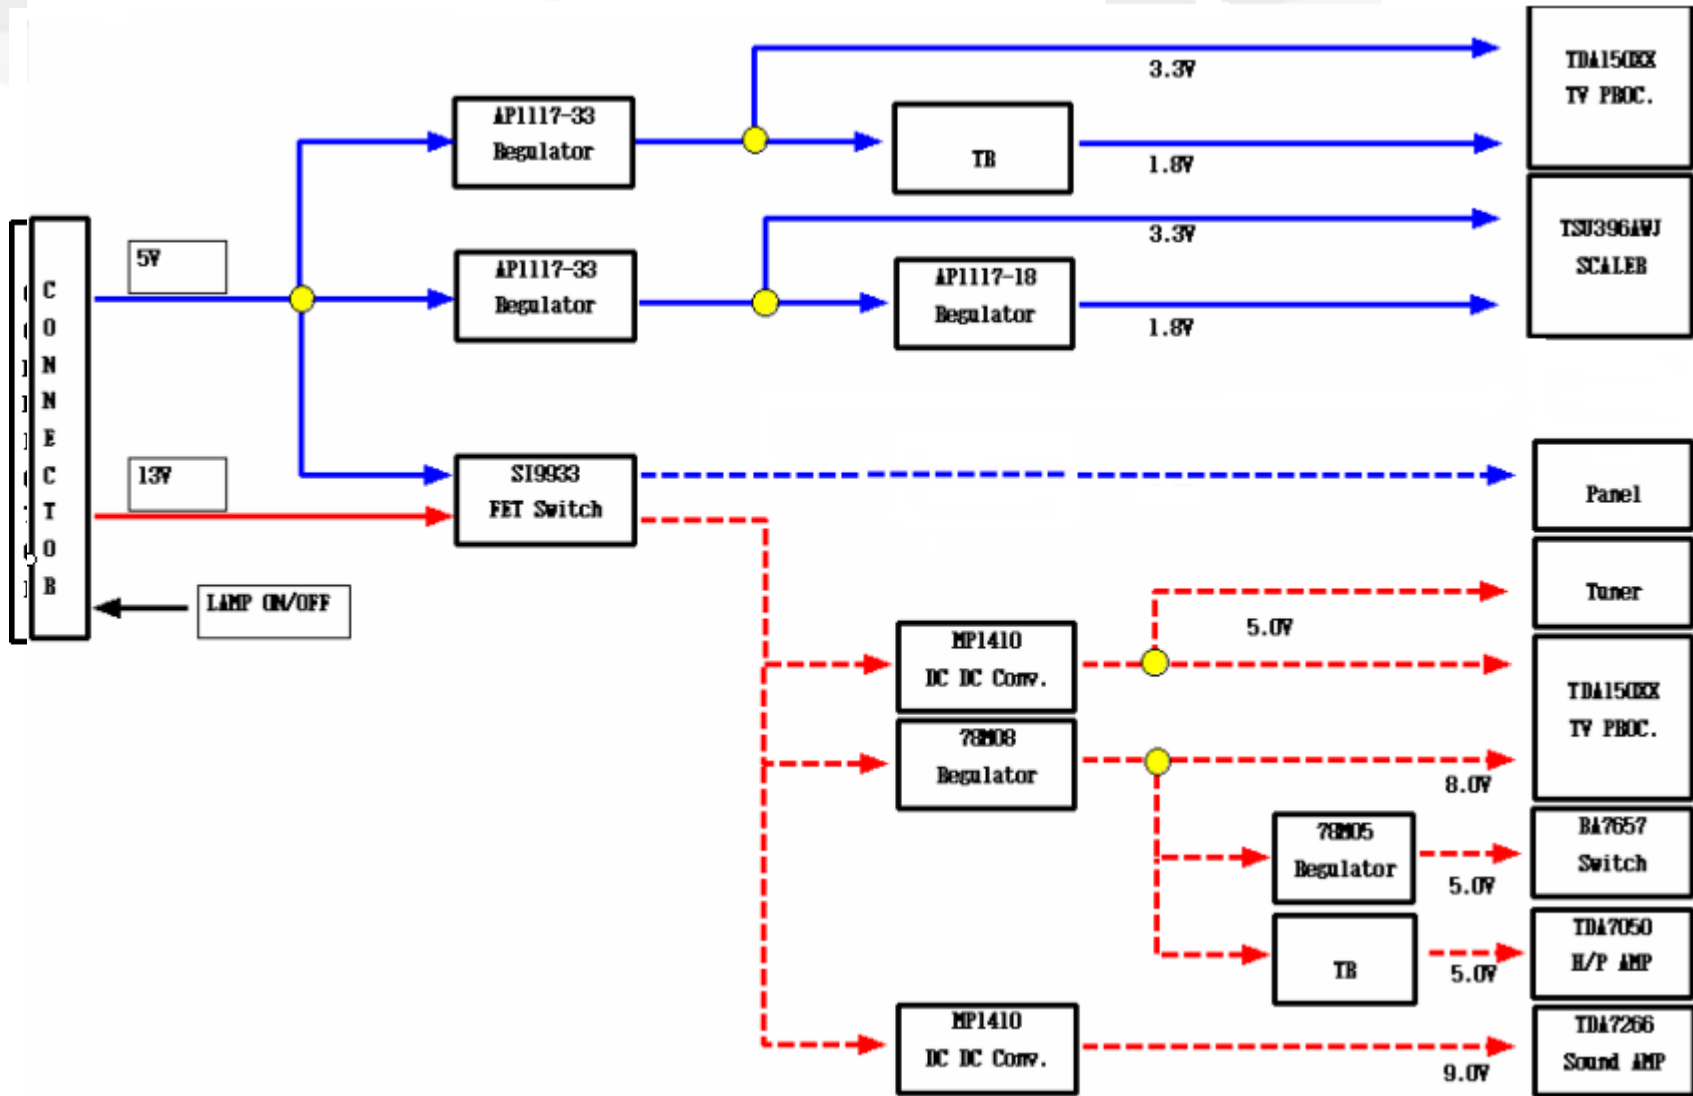

Mode	Resolution	Horizontal Frequency (kHz)	Vertical Frequency (Hz)	Pixel Clock Frequency (MHz)	Sync Polarity (H/V)
VGA	720X400	31.469	70.087	28.322	- / +
	640X480	31.469	59.940	25.175	- / -
	640X480	37.500	75.000	31.500	- / -

Scart Jack

Speaker

Function

12. Panel part

13. Disassembly(1) – LE20S81BX

1. Disassembly stand on the flat desk.
2. Before disassembly set , separate other Cables and Power cord.

**1. Separate the screw.
(11 point)**

**Separate the screw
(2 point)**

13. Disassembly(2) – LE20S81BX

Lamp wire

LVDS CABLE

Power harness

Function harness

Speaker L/R

2. Disconnect cable from the boards.

13. Disassembly(3) – LE20S81BX

3. Separate the screws

4. Lift up the RPKT

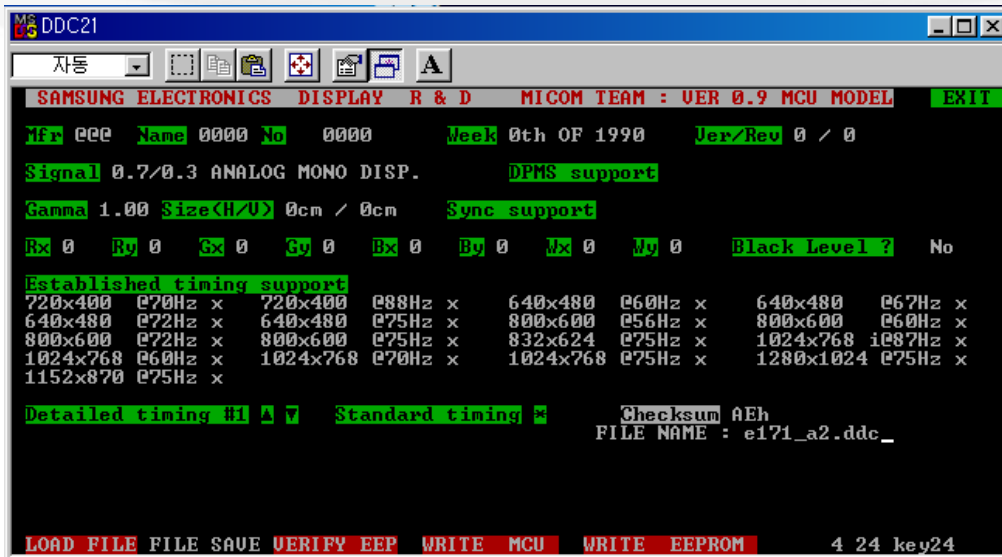

14. EDID input method

SAMSUNG LCD TV support the DDC control JIG.

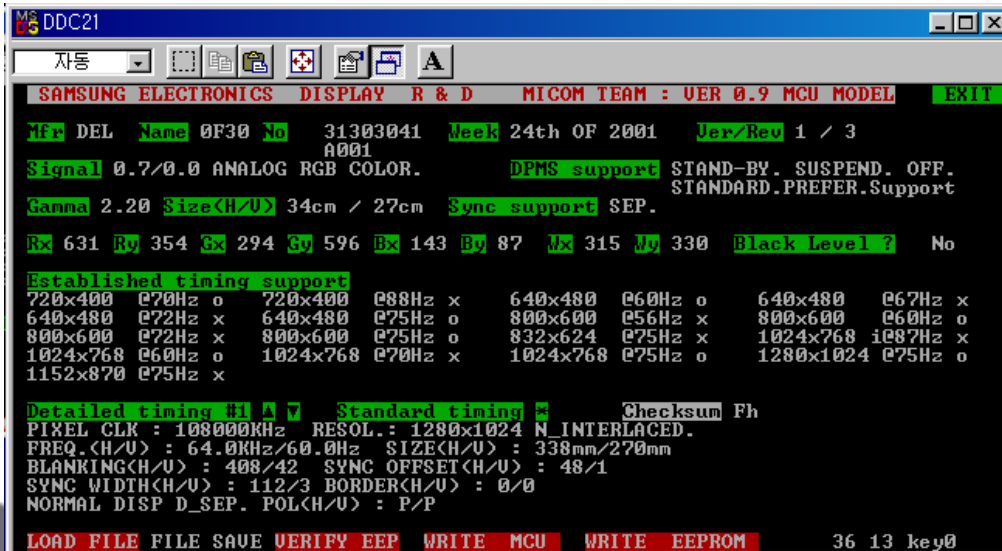

You can see the connection between PC and LCD TV.

EDID input method (Dos Program)

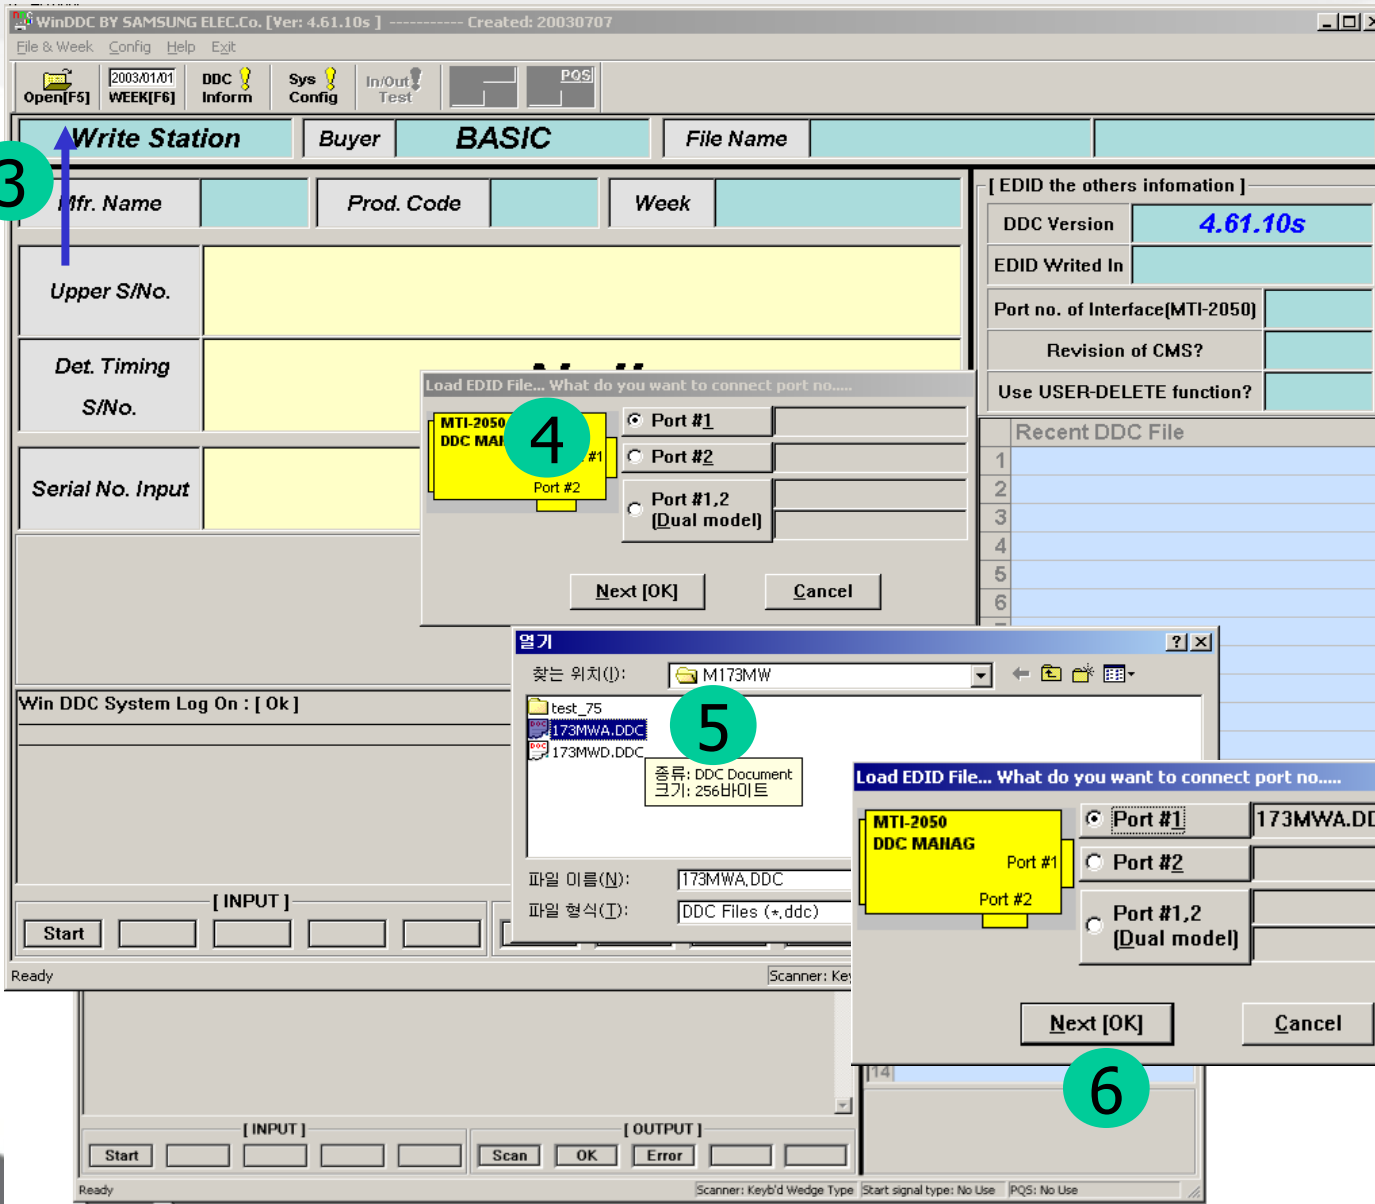

```

1. execute "DDC21.exe"
2. Click "LOAD FILE"
3. Input the File Name
 - "VE15.ddc"
 - "VC17.ddc"
 - "VC20.ddc"
4. Click "WRITE EEPROM"

EDID input method (Windows Program)

1. Execute Winddc.exe Program at PC.
2. Click the Winddc icon.
3. File open.
4. Select Port#1
5. Load DDC file
File Name
15 inch : VE15
17 inch : VC17
20 inch : VC20
6. Click Next (OK) button.

EDID input method (Windows Program)

7. Select enter button (on Key-Board) After Monitor S/N input.

8. Check "DDC OK".

14. Micom (TDA15021H) Program Upgrade

Program Upgrade Jig

Connect the parallel Port

14. Micom (TDA15021H) Program Upgrade

Connect Jig to CN905 on PCB Ass'y

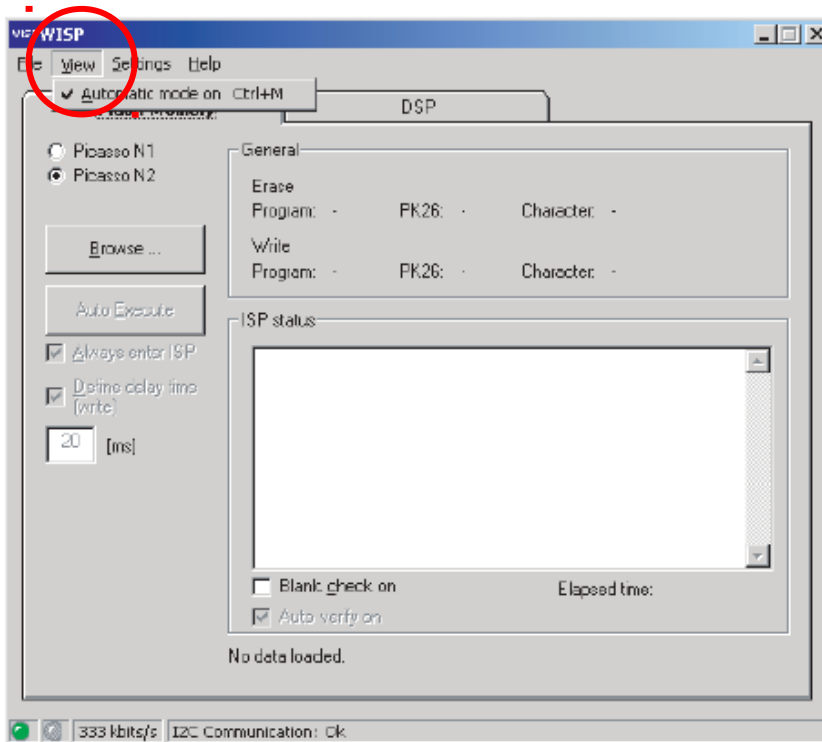

14. Micom (TDA15021H) Program Upgrade

Click "WISP" Icon on Computer

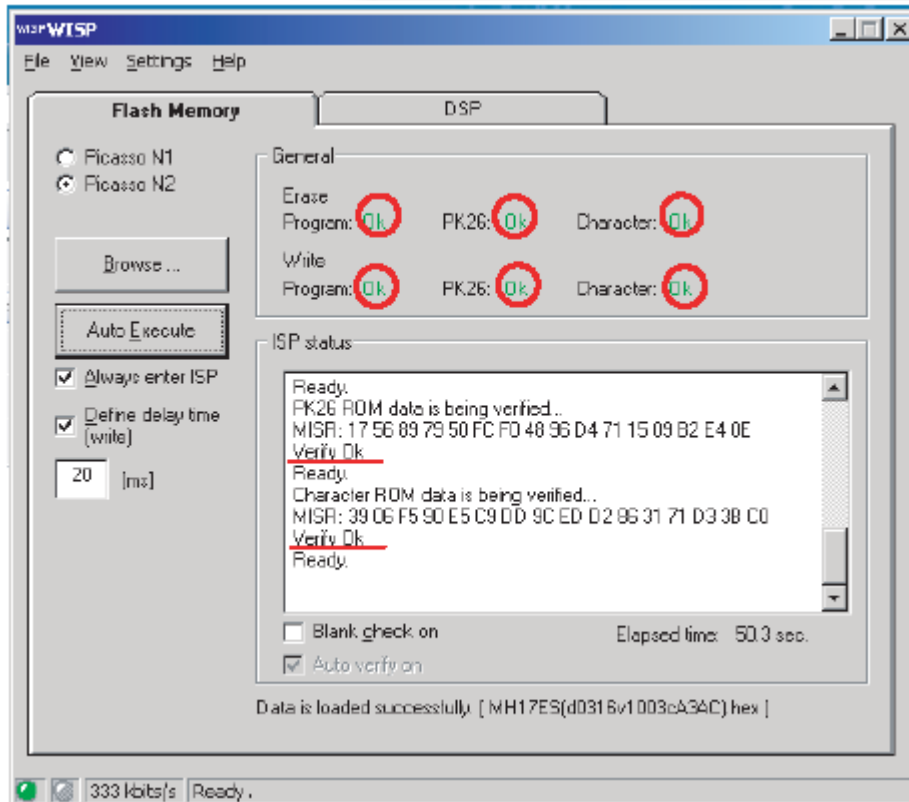

Check " Automatic mode on"

14. Micom (TDA15021H) Program Upgrade

Click "Browser" button : Select the Code , Click "Auto Execute" button

Check Erase and Write OK In "General" window and check Verify OK in "ISP status" window

Thank You!
