CROSLEY RADIOS

Four Tube AC-DC Portable Receiver

NEW TRAVO

Four-tube Superheterodyne . . . Operates on any 110-volt A. C. or D. C. circuit . . . Two Double-Purpose Tubes . . . Pilot Light . . . Attached Antenna . . . No Ground Required . . . Full Floating Moving Coil Electro-Dynamic Speaker.

Easy to carry and easy to connect, this compact, portable radio is the ideal set to carry along while traveling. Attached handle facilitates ease in carrying. Tubes used are: One type 78, one type 6F7, one type 43, one type 25Z5.

The highly attractive cabinet with handle has a suede-like finish. Dimensions: 5 $\frac{5}{8}$ " high, 10 $\frac{1}{4}$ " wide, 7 $\frac{1}{2}$ " deep. **\$25⁰⁰ COMPLETE**

FIVER

Five-tube, Two-band Superheterodyne . . . Standard Broadcasts 540-1570 Kc., Police, Amateur, Aviation Broadcasts 1570-4000 Kc. . . Illuminated, Full Vision, Airplane Type Dial . . . 5 to 1 Ratio Drive . . . Tone Control . . . New 6B5 Triple-Twin Output Tube . . . Full Floating Moving Coil Electro-Dynamic Speaker.

Typical of Crosley leadership in radio values, this amazing five-tube receiver brings excellent reception within reach of homes with modest pocketbooks. Tubes used are: Two type 6D6, one type 76, one type 6B5, one type 80.

The beautiful cabinet has figured walnut veneer on the front panel. Decorative lines on the solid wood top and also on the end panels. Dimensions: 11 $\frac{1}{2}$ " high, 10 $\frac{1}{2}$ " wide, 7 $\frac{1}{2}$ " deep. **\$19⁹⁹ COMPLETE**

PRIVATEER

Five-tube Superheterodyne . . . Operates on 110 volts A. C. or D. C. . . . Attached Antenna . . . Full Vision, Illuminated Airplane Type Dial . . . 5 to 1 Ratio Drive . . . Full Floating Moving Coil Electro-Dynamic Speaker.

With this remarkable A. C.-D. C. model, radio entertainment can be enjoyed anywhere—while traveling, at the office, or at home in the den, sun parlor, bedroom or elsewhere. Uses following tubes: Two type 6D6, one type 6B7, one type 43, one type 25Z5.

The exquisite cabinet has a front panel of figured walnut veneer. Decorative lines adorn the solid wood top and the end panels. Dimensions: 11 $\frac{1}{2}$ " high, 10 $\frac{1}{2}$ " wide, 7 $\frac{1}{2}$ " deep. **\$25⁰⁰ COMPLETE**

CROSLEY A. F. M.
(American) (Foreign) (Metal Tubes)

Five-tube, Two-band Superheterodyne . . . All Metal Tubes . . . Standard and Police Broadcasts 540-1710 Kc.; Foreign and Police Broadcasts 2350-7500 Kc. . . Illuminated Full Vision Airplane Type Dial . . . Tone Control . . . Automatic Volume Control . . . Two Double Purpose Tubes . . . Full Floating Moving Coil Electro-Dynamic Speaker.

Here is a marvelous new Crosley radio that places American, foreign and police broadcasts within reach of practically every home. Metal tubes used are: One type 6A8, one type 6K7, one type 6J7, one type 6F6, one type 5Z4.

Figured walnut veneer on the front panel makes this a gorgeous cabinet. Dimensions: 11 $\frac{1}{2}$ " high, 10 $\frac{1}{2}$ " wide, 7 $\frac{1}{2}$ " deep. **\$29⁹⁵ COMPLETE**
A. F. M. CONSOLE—Employs same chassis as A. F. M. and same cabinet as Fiver Console. **\$47⁵⁰ COMPLETE**

FIVER CONSOLE

Five-tube, Two-band Superheterodyne . . . Standard Broadcasts 540-1570 Kc., Police, Amateur, Aviation Broadcasts 1570-4000 Kc. . . Illuminated, Full Vision, Airplane Type Dial . . . 5 to 1 Ratio Drive . . . Tone Control . . . New 6B5 Triple-Twin Output Tube . . . Full Floating Moving Coil Electro-Dynamic Speaker.

To see and hear this remarkable console radio is to know the truth of the statement, "quality at the most attractive price for everyone." Receives police, amateur, aviation and standard broadcasts. Tubes used are: Two type 6D6, one type 76, one type 6B5, one type 80.

Front panel is of center matched American walnut veneer. Top of walnut veneer. Pilasters are needed. Speaker grille has decorative overlay. Dimensions: 36" high, 21 $\frac{1}{2}$ " wide, 11 $\frac{1}{2}$ " deep. **\$37⁵⁰ COMPLETE**

THE CROSLEY RADIO CORPORATION
CINCINNATI
POWEL CROSLEY, Jr., President
FORM NO. 1594
PRINTED IN U.S.A.

THE high quality of the new 1936 Crosley Radios is instantly apparent to every one. The distinctive beauty of the new cabinets brings exclamations of delight. The superior performance and unexcelled tone is recognized the moment a new Crosley is tuned in. And an examination of the inside of any model reveals highest quality through and through. Even so, each new Crosley is priced surprisingly low. A comparison of any one model with any other in the same price range tells the story—that here is the finest quality at the most attractive price for everyone.

MOST ATTRACTIVE PRICE

Quality AT THE

EVER in the infant days of radio, when crystal sets were considered marvels, Crosley was universally recognized as the radio pioneer—as the leader . . . pace-maker . . . in radio style, radio performance, radio value. The complete culmination of the past fourteen years of Crosley pioneering and leadership is expressed to the highest degree in the new 1936 Crosley Radios. Now Crosley offers parallel lines of metal tube sets as well as glass tube sets, each of which is specifically designed and engineered for the kind of tubes employed. The inclusion of such exceptional features as Auto Expressionator, Automatic Bass Compensator, High Fidelity, Curvilinear Speaker, Magnum Dial with Timelag Tuning, and many others, bring a new standard of satisfaction to Crosley owners.

LEADING THE WORLD

IN Beauty Performance Value

CROSLEY FIVE-TUBE RADIOS

There's a CROSLEY for everyone

NO matter what the needs or the purse, set in the home, the camper, the traveler, meet the radio needs of the home, the extra foreign reception as well. Crosley models for reception and many all-wave models for right. There are models for fine American there is a new Crosley that is exactly the business man—in fact, everyone.

BUCCANEER

Employs same features as Crosley Buccaneer Console. An amazing six-tube three-band radio that receives American, foreign, police, amateur and aviation broadcasts. Cabinet front panel of center-matched stump walnut veneer. Dimensions: 16 1/2" high, 12 1/4" wide, 8 3/4" deep.

Tone Control... New Magnum Dial with Time-Log Tuning... Full Floating Moving Coil Electro-Dynamic Speaker.

\$69.95

COMPLETE

ONLY CROSLEY CAN GIVE YOU ALL THESE NEW AND STARTLING FEATURES

AUTO EXPRESSIONATOR—Developed in the Crosley Engineering Laboratory, here is a startling accomplishment in the reproduction of music exactly as it is broadcast. Generally the loudest tones transmitted by radio are only about one hundred times as powerful as the softest tones. This tends to compress the volume range and EXPRESSION in music is noticeably limited. The new Crosley Auto Expressionator automatically compensates for this compression of the volume range in the transmitter. It enables you to hear the natural rise and fall in volume as the musical selection is rendered by the artist.

AUTOMATIC BASS COMPENSATOR—As an important adjunct to the Auto Expressionator, Crosley Engineers have developed the Automatic Bass Compensator. As music becomes softer and softer, the bass tones become inaudible before the higher tones. To correct this effect, the new Automatic Bass Compensator prevents the volume suppression of bass notes.

CARDIOMATIC UNIT—The heart of the radio is a small floating sub chassis that is mounted on the main chassis by four live rubber mounting sleeves. This unit contains the Antenna, R. F. and Oscillator coils for all bands, the oscillator and motorator tubes, the tuning condenser and the band selector switch. Vibration generated by the speaker is therefore not transmitted to the delicately adjusted chassis parts.

HIGH FIDELITY—The ability of a receiver to reproduce extremely high and extremely low frequency tones which are seldom heard in ordinary receivers is known as High Fidelity. This is accomplished by the use of a balanced combination of tuned Intermediate Frequency Amplifier, distortion-free Detector Circuit, wide range equalized audio system, tone control, special loud speaker and acoustically designed cabinet. Each instrument is balanced at the factory, using an ingenious instrument known as a cathode ray oscilloscope.

VIBRACOUSTIC SOUNDING BOARD—This is a sizable, floating, lyre-shaped acoustic sounding board of the piano type and is made from acoustic wood.

CURVILINEAR SPEAKER—The cone of this amazingly new Crosley speaker is shaped something like a morning glory blossom, with the curve following an exponential curve. The new Curvilinear Speaker has a wide range frequency response.

MAGNUM DIAL WITH TIMELOG TUNING—Now Crosley introduces a new large dial that is extremely beautiful and at the same time most complete and highly developed from a practical standpoint. The well-spaced calibration markings and increased diameter of the dial make accurate tuning much easier.

TIMELOG TUNING—The outer circle markings are arranged like the numbers on the face of a clock. The two pointers, together with the clock markings make time-logging possible. For example, a station may be logged at 4:20 or 11:35 on the outer circle and it will always be tuned in at the same time-reading.

VERNIMATIC TUNING CONTROL—The Vernimatic dial drive makes it possible to turn the station selector fast or slow without the use of double knobs. It makes possible quick and exact tuning.

SHADOWGRAPH TUNING MONITOR—As a new convenience in tuning accuracy, the Shadowgraph Tuning Monitor is projected on the dial above the center. As a station is tuned in, the shadow decreases in width and reaches its minimum width when the station is perfectly tuned in.

BARKENTINE CONSOLE

Eleven Metal Tubes, Four-band Superheterodyne... Weather Broadcasts 150-400 Kc.; Standard Broadcasts 540-1900 Kc.; Police, Amateur, Aviation Broadcasts 1900-6500 Kc.; Foreign Broadcasts 5900-19,000 Kc.... Auto Expressionator... Automatic Bass Compensator... Cardiomat Unit... High Fidelity... Magnum Dial with Time-Log Tuning... Vernimatic Control... Special Band Designator... Shadowgraph Tuning Monitor... Triple Tuned Transformers... Broad Automatic Volume Control... Oversize Power Transformer with Dual Rectifier... Tone Control... Vibracoustic Sounding Board... Curvilinear Speaker.

\$137.50

COMPLETE

The only way to describe this radio marvel is to call it "personal preference" reception. Nothing like it has ever been heard before. Tubes used are: Two type 6K7, one type 6L7, two type 6C5, one type 6H6, three type 6E6, two type 5Z4. Cabinet has stump walnut veneer front panel, middle back walnut veneer pilasters with reeded stiles. Dimensions: 42" high, 26" wide, 13 1/2" deep.

DREADNAUGHT CONSOLE

Eleven Metal Tubes, Four-band Superheterodyne... Weather Broadcasts 150-400 Kc.; Standard Broadcasts 540-1900 Kc.; Police, Amateur, Aviation Broadcasts 1900-6500 Kc.; Foreign Broadcasts 5900-19,000 Kc.... Auto Expressionator... Automatic Bass Compensator... Cardiomat Unit... High Fidelity... Magnum Dial with Time-Log Tuning... Vernimatic Control... Special Band Designator... Shadowgraph Tuning Monitor... Triple Tuned Transformers... Broad Automatic Volume Control... Oversize Power Transformer with Dual Rectifier... Tone Control... Vibracoustic Sounding Board... Curvilinear Speaker.

\$149.50

COMPLETE

Listen to this radio marvel. Hear, for the first time ever, the radio, the orchestra as it actually sounds, with all its magnificent crescendos, its whispering pianissimos. Same chassis as Crosley Barkentine. The cabinet is truly a work of art with the outside of matched stump walnut veneer. Fluted stiles capped with Zebra wood inlay. Dimensions: 41 1/2" high, 26" wide, 14 1/2" deep.

CHALLENGER CONSOLE

Nine Metal Tubes, Three-band Superheterodyne... Standard Broadcasts 540-1900 Kc.; Police, Amateur, Aviation Broadcasts 1900-6500 Kc.; Foreign Broadcasts 5900-19,000 Kc.... Auto Expressionator... Automatic Bass Compensator... Cardiomat Unit... High Fidelity... Magnum Dial with Time-Log Tuning... Special Band Designator... Automatic Volume Control... Tone Control... Full Floating Moving Coil Electro-Dynamic Speaker.

\$115.00

COMPLETE

This marvelous radio gives an altogether new kind of radio reception that must be heard to be appreciated. Tubes used are: Two type 6K7, one type 6L7, two type 6C5, one type 6Q7, two type 6F6, one type 5Z4. The cabinet lends beauty to any surroundings with its top and recessed front panels of figured walnut veneer and fluted stiles. Dimensions: 41" high, 25 1/2" wide, 14 1/2" deep.
