**"Fisk Series"
Radiola 34**

The Radiola Thirty-four is a three valve, screen grid receiver in an artistically designed Queensland Maple cabinet with enclosed loudspeaker.

Compact and small, it can be suitably placed on a mantelpiece, sideboard or table.

Robust in construction—modern in design—it is very selective and ideal for local station reception.

A demonstration by your local Radiola Dealer will convince you of the matchless performance of this compactly designed Radiola.
