

THE NEW LEUTZ UNIVERSAL TRANSOCEANIC

9 TUBES

WITH FOUR UX222's AND 2—UX210's OR 2—UX250's

DURING the past two years less than one thousand Universal Transoceanic Phantoms have been manufactured. They have been shipped to points in every state in the Union, every province of Canada, Alaska, Hawaii, Philippine Islands, Porto Rico, and practically every foreign country in the world. In practically every instance the new owner of the Transoceanic Phantom has written to us expressing complete satisfaction and reporting results far superior to any competitive makes used in the same vicinity.

There is no mystery connected with the superior performance of Leutz radio receivers. In 1922, seven years ago, Leutz had 8 and 10 tube Super-Heterodynes on the market, while the nearest competitive set had three tubes. Likewise, Leutz had the first Shielded Set, First Single Control License under the Hogan Patent, first resistance-coupled audio, first interchangeable tuned radio frequency transformers, first metal cabinet, and many other original features used two years ahead of other designers.

Powerful radio receivers, each perfect in every respect, cannot be built hurriedly. Each Leutz radio receiver is made to special order only. The average time required for delivery is three to six weeks after receipt of confirmed order. Leutz receivers are not sold on a trial basis; anyone contemplating the purchase of a Leutz receiver need only inquire from any of our customers and they will be assured that they will obtain the best radio receiver in the world.

The present Universal Transoceanic Phantom Special has the most powerful tube arrangement one could desire, viz., Four 222 Screened Grid Radio Frequency Stages, 200A Super-Detector, four audio stage, two of which are in a push-pull system using either two 210's or two 250's, output adjustable for a small room, or sufficient for six Dynamic Speakers distributed over a battleship.

Only a limited number of Transoceanic Phantoms can be produced this season, and our production is already sold considerably ahead. We suggest placing Phantom orders three to four weeks ahead to prevent disappointments in delivery.
