

Magic

of complete enjoyment...

Rhythmical chords and lilting notes inviting you to dance. So wonderful for parties — so pleasant to listen to. Inside and out, artistically and mechanically the new A.W.A. Radiola Tablegram 535GA reflects only the finest of craftsmanship and the most advanced engineering. Its simplicity of contour is relieved by blonde and cream appointments and a bow front provides an elegance not usually associated with a tablegram.

The power and richness of tone — the extreme sensitivity and selectivity — the magnificent reproduction of records and radio broadcasts and the ability to perform faultlessly year after year... features that combine to bring to your home the magic of complete radio enjoyment.
