

# "TILTRACK"

Registered Trade Mark  
Patent STEEL STORES System

Are  
**YOUR**  
Stores  
made  
from  
Soap-  
boxes?

What a Penny-wise and Pound-foolish proceeding! What a stores when it is made! What a place to lose goods in! Dark and dismal. No convenience. No method. No efficiency. What a difference with "TILTRACKS." All Steel. Goods found instantly. Trays tilted to give maximum illumination and rapid removal of goods. They save many pounds per year—to say nothing of the conservation of temper and energy.

"TILTRACKS" ARE MADE IN MANY STYLES: For the Experimenter, The Factor, and The Manufacturer. Send to-day for Lists.

### THE "BENCHRACK" (Tiltrack Principle)

A real help for storing small parts such as Terminals, Nuts, Washers Insulators, etc. Made to stand on the work bench, it enables all small parts needed for the job in progress to be stored where they are immediately to hand. All the trays are tilted so that the parts stored can be seen at a glance, and the front faces of the trays are rounded so that the smallest parts can be swept up the slope with the fingers of one hand. Each tray is provided with patent hinging partitions which can be moved quickly to make larger or smaller compartments. Being so accessible these racks greatly facilitate stocktaking. The Experimenter will do his jobs much quicker and with greater pleasure, and the Factory will save many pounds per year by installing this Benchrack.

**30/- F.O.R.**

### "TILTRACK" WHEELED TRUCK

It wheels to the job. A big time saver.

Particulars from Manufacturer and Patent

### "TILTRACK" (Senior)

For storing all kinds of goods. Approx. size of Trays, 2' 6" x 12" x 6".

# MUSIC ANYWHERE from ANYWHERE

DESIGNED and made with the same meticulous care and on the same principles as all Philips' products, this Portable Set embodies several distinct features, each marking a definite step forward in the history of modern radio. The simple, almost severe, design of the cabinet enables it to harmonise with any type of furniture, while the aerial, speaker, and batteries are all contained in the cabinet, leaving no unsightly wires to spoil its appearance. A single thumb control actuates two tuning circuits, which ensures easy reception of the leading British and Continental stations. Even the controls are out of sight when the set is not in use.

When the cabinet is closed the receiver is automatically switched off and cannot be used again until the operating panel is unlocked.

For Summer Radio Philips Portable, Type 2522, Price £27.10.0 or on convenient easy payment terms.

# MORE THAN A PORTABLE A PHILIPS PORTABLE

Made by the manufacturers of the famous Philips Argenta electric lamps, all-electric radio receivers, commercial and industrial fittings, and neon signs.

PHILIPS LAMPS LTD., Philips House, 145, Charing Cross Road, London, W.C.2.
