THE HISTORY OF RADIO ON CD-ROM

Radio Era Archives produced the *QST-VIEW* series of CD's for the American Radio Relay League (ARRL) and over 1/2 million CD's have been sold. *QST* Magazine has been continuously published since 1915. We are now proud to announce that this small mountain of CD's (about 35) is now available exclusively from REA (All Sets) ! Every magazine published from 1915 to 1994, front cover to back cover, every article and column, all accessible with our database search engine.

QST-VIEW CD Edition truly captures the history of radio in 11 volumes. All CD's warranted to work on all Windows platforms from Windows 95 through XP. Each set is \$ 39.95 and we have all sets in stock. The sets are: 1915-1929, 1930-1939, 1940-1949, 1950-1959, 1960-1964, 1965-1969, 1970-1974, 1975-1979, 1980-1984, 1985-1989, 1990-1994. Each set of years is a self-contained set so you can operate one or all sets together. Now that large capacity hard drives are so inexpensive, the 36 CD's can be loaded on about 20Gb of hard disc space for instant searching and viewing without having to swap discs! Full information is provided with each purchase and *QST-VIEW* has on-line instructional help for operating the *QST-VIEW* browser!

EACH SET \$ 39.95 (specify the years)

ALL 11 SETS \$ 379

S&H USA for first set is \$ 5.00, add \$ 1.00 each set thereafter

S&H Export first set is \$ 15.00, add \$ 2.00 for each set thereafter

2009 1/2 PRICE SPECIAL (while supply lasts)

Don't forget, we have the entire John Rider's Perpetual Troubleshooters Manuals on a single DVD. All 23 Volumes of the Riders available at the click of a mouse! Over 120,000 different model radio schematics and related service information in an easy to use DVD. **Thousands sold at \$ 199. SPECIAL \$ 99 + \$ 6.00 S&H in the USA, add \$12 for worldwide delivery. Order Now while supply lasts !**

We now have a small mountain of vacuum tubes at very competitive prices - Thousands sold since our first posting of these tubes. All types including receiving and transmitting types. Tube price listings on the web:
<http://www.radioera.com/tubes.asp>

SCHEMATIC DIAGRAM & MANUAL SERVICE

Over a Million schematics & 100,000 manuals and growing! Schematics and most manuals may be emailed instantly via the internet

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

NOTICE. Subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

ATTENTION SUBSCRIBERS: All paid subscribers receive a **FREE** classified ad of up to 50 words in each issue.

Publisher's Comments

Even though this is the November 2012 issue I would like to wish everyone a very Happy New Year.

Between our former printing company and hurricane Sandy we are about 2 issues behind in publishing the magazine. We hope to have everything up to date within 3 months. You can help us by sending in photos for the Photo Review section or any articles you can write. Remember, an article can consist of a single type written page and 3 or 4 photographs.

I'm always intrigued by the ways our readers help to promote the collecting of antique radios. Mike Katz has found a unique way of promoting our hobby through his local library. He went to 2 libraries in his area and suggested they do a display of his radios. Libraries are always looking for things to promote local citizens. Check out the article in this issue. It costs nothing and will get you and the hobby noticed. Congratulations to Mike on an excellent idea.

The Kutztown Radio Show is now one of the most popular radio meets on the east coast. It takes place in May and September. A.R.C. has a couple of tables at the meet. One of the nice things about the meet is how easy it is to work with Renninger's – the organization that runs the show. They make it simple, just sent the money for your table(s) and then show up and have fun! The Delaware Valley Historical Radio Club is the sponsor

and holds the auction. The auctioneer is Richard Estes (www.estesauctions.com). See the photos and auction results in this month's issue.

Paul Moens has a nice article this month on "The Portables of my Life." Paul looks at some nice portable radios he has owned like a Continental or Rambler. He even is showing his grandchildren about technology before computers!

This month we also make a special visit to Bonham's Auctions house in New York City. In December they had a special radio auction of 133 catalin and plastic radios belonging to Richard Balsbaugh. The radios in this auction sold for between \$1500 and \$37,500 for an Air King Skyscraper! While many of us don't collect this style of radio we can all appreciate their beauty.

Until next month, happy collecting.

Jon Kummer
Publisher

On The Cover

On the cover this month we feature a Crosley Shelvador refrigerator radio combination. This refrigerator is part of the collection at the Vintage Radio & Communications Museum in Windsor, CT. Next month we will have a story on the museum and the hard work it took to put the museum together. If you can't wait until next month their web site is www.vrcmct.org.

The “Portables” of My Life

BY PAUL R. MOENS

Over the years whenever I discuss and share my radio collection with others, the most frequently asked question is “How long have you been collecting radios?” I usually respond “Since the 1970s.” Actually, I acquired 3 battery portables much earlier when I was a teenager. They are a 1946 RCA Victor model 54B3, a 1959 Continental P-50 and a 1964 Star-Lite Rambler 6 Transistor.

The Continental was purchased as a gift from my father. Mine was red in color. They also came in other colors such as Black, White, Blue and Green. The RCA was owned by an elderly gentleman who gave it to my brother who later gave it to me. Both of these radios were somewhat similar. Each used a 1.5 volt “A” battery and a 67.5 volt “B” battery, however, the RCA used a No.467 and the Continental used a No.416. The tube compliment in both was the very common 1R5, 1T4, 1U5 and 3S4. I honestly believe reception was better with the RCA. The biggest shortcoming of both was the Carbon-Zinc 1.5 volt battery during the 50’s and 60’s used for the tube filaments. Until alkaline technology arrived, battery life was not that good.

Both were really nice AM radios and easy to operate. The RCA was unique in that you turned it on by raising the flip open lid and lowering it to turn it off. It weighs about 3 1/2 pounds, so some people may not think of it as a portable. The Continental has a collapsible handle and weighs in at 2 pounds, made with lighter plastic. My particular RCA was in a maroon simulated alligator case. I’ve heard that other color options existed although I’ve never seen any.

My Star-Lite Transistor was the first radio I ever purchased. That was in 1964 with my summer job earnings. It was small, 2 3/4” X 4” X 1”, weighed 9 ounces and would easily fit in a shirt pocket. It was powered by the very common and affordable 9 volt battery of the day. There was a fad about that time in that many teenagers carried transistor radios with them to school, on the bus, at the beach, everywhere it seemed. I actually had a better use for my transistor radio. My first car was a 1960 Corvair and it didn’t have a radio, but it did have an ash tray on top the dash in the center. If you removed the ash tray insert, the transistor fit perfectly inside. It was my car radio and I could listen to music by The Monkees, The

Rear view of the radios

The author showing the RCA to his grandchildren

Seekers and other popular artist whenever I was driving.

As with most radios of this era, capacitors eventually start to fail and restoration is inevitable. I'm fortunate that I turn to my good friend Dave in Liverpool, NY at Dave's Antique Radio and TV Restorations. He is a service advertiser in ARC and has been in the business over 40 years. He has restored both the RCA and the Star-Lite for me. My Continental will be his next restoration project. He has a couple of good web sites also.

Just before the holidays, I spent an afternoon with my two granddaughters, Madison age 6 and Emily age 3, sharing my portables with them. I asked both of them what they thought the RCA was. Their responses were jewelry box, camera case, lunch box and mini suitcase. When I opened the lid and sound emerged, they were amazed. I explained to them that this radio was older than Grandpa. Their facial expressions seemed to indicate that nothing could be that old! Emily liked the Conti-

1946 RCA 54B3

mental the best. Madison thought listening to the transistor radio thru the earphone was very “cool.” I finally showed them a Radio Tube from the 1930’s and explained what that was. They thought it was a light bulb. As their Grandpa, I enjoyed my “Show and Tell’ very much.

Radio technology as we know it has changed many times over the years. After tubes, Transistors gave way to Solid State. In fact, radios got larger again before they got smaller. Remember “Boom Boxes?” Then there was Walkman, Discman, Portable Music Players, iPods; the list goes on.

My three portables occupy space on my kitchen table and I listen to at least one of them with my morning coffee everyday. Because I live in Upstate New York, I was in the path of Hurricane Sandy’s trek up the east coast this Fall. Facing potential power outage and other devastation, I was glad “The Portables of my Life” were still on the job. I will never part with them.

1964 Star-Lite Rambler 6

(Paul R. Moens, 6792 Miller Rd., Newark, NY 14513, PRMoens@aol.com)

Paul Moens is a retired letter carrier and New York State Thruway employee. He is self-employed as a tax and financial advisor. His radio collection also includes consoles , tabletops and Zenith Trans-Oceanics.

1959 Continental P-50

The Richard Balsbaugh Collection of Vintage Radios

December 11, 2012 – Bonhams

On December 11, 2012 the Richard Balsbaugh collection of vintage radios was auctioned at Bonhams, the international auctioneer company.

The collection of 133 radios consisted mostly of catalin and plastic radios of the 1930s and 1940s.

Some of the highlights included a 1933 green Air King Skyscraper that sold for \$37,500; a 1939 Detrola 281 split grill yellow and green for \$37,500; a 1939 cherry red Tom Thumb that realized \$21,250.

Richard Balsbaugh caught the radio bug in the 1980s while searching for a present for a business associate. His collection was devoted to radios of modernist design and bold colors found in catalin type radios. At one point he had over 200 radios.

Mr. Balsbaugh was in the radio communications business where he would acquire failing radio stations and increase their profitability. He sold his business in 1996 for \$300 million.

The Kutztown Radio Show

**Kutztown, PA
September 21-22, 2012**

The Kutztown Radio Show was held on September 21-22, 2012. Once again the show was a huge success attracting a large crowd of buyers and sellers. The tables in both pavilions were sold out.

On September 22 at 1:00pm the auction was held in the "White Room" at Renningers. A total of 14 lots were offered at the auction. This total included a large estate sale from Maryland. The total auction brought in \$8693.00. Richard Estes (www.estesauctions.com) was the auctioneer.

Master Tone battery set

Newcomb audio amplifier

A collection of TVs for sale

A couple of happy collectors

A small section of the crowded show

Speakers from the Chidesters

Rich Lee, president of the New Jersey ARC

Fairbanks Morse AC table top

A “Novel” Way to Promote Antique Radio Collecting

It’s the latest, it’s the greatest, it’s the library

Mike Katz of Long Island, NY has found a “novel” way of promoting antique radio collecting as well as his collection.

Within the last year he approached 2 libraries in his area and asked if they would like to set up a display of his radios. Both the Levittown, NY and Garden City, NY public library have displayed his radios.

Mike simply approached the person who was in charge of exhibits at the library and they agreed to display the radios for one month. According to Mike, libraries are always looking for new ideas for their exhibits.

Mike has always been a collector and now has over 100 radios. He specializes in rare and unusual radios both from the U.S. and many foreign sets.

Why don’t you approach the public library in your community? There is a good chance that they are looking for something new to exhibit.

Radios at Levittown Library, May 2012

Garden City library

CLASSIFIED ADVERTISEMENTS

WANTED: Vintage Movie Posters, Lobby Cards, still photos, Live Music Posters. All Sizes, Any Condition. Will buy entire collections! Ralph DeLuca, 157 Park Ave., Madison, NJ 07940. (800) 392-4050. E-mail: Ralph@ralphdeluca.com.

WANTED: Philco Chevron Grille Cloth, Silvertone 1650 speaker, Zenith 12 S 265 outer dial shell, Silvertone 4792 dial bezel & Insert, Bretling 14 cover. Keith Park, 31 Barkwood Ln, Clifton Park, NY 12065. (518) 373-0417. E-mail: topnotch@nycap.rr.com.

WANTED: Rider's Basic Electronics (1955), Volume 4. Also looking to buy fixer-upper tombstone, table and cathedral radios (ham gear also) in the Pittsburgh, PA and Youngstown, OH regions. Send me a list of what you have. Jason Wiles, N3JAW, 130 Clocktower Ln., Harrisville, PA 16038. Email: jason@wileselectronics.com.

WANTED: Hello, My name is Mark Vess and I am looking for two, (audio, not RF), iron core interstage transformers. They need not be even close to the originals in form. I will pay a good price for these items. I will pay \$50 to \$150 each if they measure up to my size and resistance requirements. I need to rely on the resistance measurements as that is what the schematic calls out. These transformers are for the first and second audio stages of an Atwater Kent Model 5 receiver, #4333 that I am restoring to working condition. The first transformer needs to fit into a space of 3 inches by 2 inches by 2 inches. This does not include the mounting lugs as I will cut them off. The second transformer needs to fit into a space of 3 inches by 2 inches by 2 inches. This does not include the mounting lugs as I will cut them off as well. The first transformer measures 35 ohms on the primary and 1000 ohms on the secondary. The second transformer measures 55 ohms on the primary and 1800 ohms on the secondary. Tolerance is +/- 10%. Flying leads, solder tabs, binding posts, solid or stranded leads are all acceptable. Open core, mounted core and potted transformers are also acceptable. Original A-K units will get top dollar. I intend to sell these to my fellow collectors if they work well. These transformers are the missing link for many A-K Model 5 projects. You may benefit from my project if this works. My results will be shared with anyone who requests them. Thank you very much for reading my email. I hope you can help my radio come to life and make you some money doing it! Mark A. Vess, 303 High St., Hanson, MA 02341. (781) 294-1647. E-mail: vessmuseumtech@aol.com.

WANTED: Grigsby Grunow (Majestic) AM radio models 61 & 62 (1928). Reward: \$100 finder's fee, paid at time of sale, to person finding either of these radios. These radios may be in any condition, working or not working, for a refurbishment project. Contact Richard Blum with your "find" at PO Box 2626, Palos Verdes Peninsula, CA 90274. E-mail: richieraider@juno.com.

OLD TECH BOOKS & THINGS

A 2,000 sq. ft. museum is not enough space for my 1000+ set collection. And, hundreds of boxes await either space in the museum or sale. Some things must go! Choices must be made. As the late Dr. Muchow said, "As collectors, we truly are temporary caretakers of these historical artifacts."

Items for sale are either duplicates or the result of fine-tuning the scope of my collection.

For details on these items and much more, visit:

www.oldtech.com

From the A.R.C. Bookstore...

Practical Radio Repair – Volume II

by Ray Bintliff

\$22.95 - 126 pages, 315 illustrations, soft cover

Volume I of *Practical Radio Repair* by Ray Bintliff is one of the hottest selling titles in the A.R.C. Bookstore.

Volume II complements the original volume and provides additional information regarding special tools, test adapters, supplies, chemicals, and shop set-up. An excellent book for both the experienced restorer as well as the novice learning repair.

Order today. We gladly accept:

\$3.00 shipping & handling on all U.S. orders (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Non-U.S. orders, write for shipping costs, or use credit card. Most orders shipped by next business day. If using credit card, include name on card, card number and expiration date. Send payment with order. New York residents must add sales tax.

Everything stocked & shipped promptly. Radio is our middle name.

CRYSTAL CLEAR

By Maurice L. Sievers

Volume 1

750 Illustrations – 570 Crystal Sets
341 Detectors – 207 Crystals
Perfect for the beginning collector!
Useful for the experienced too!

Crystal Clear is the most comprehensive reference for collectors, historians and anyone interested in early radio. In addition to the many excellent photos and reproductions of ads, *Crystal Clear* includes lists showing all sets by manufacturer, set name, selling price and date of manufacture. 8 1/2" x 11", 282 pages.

\$29.95 – Softcover

Volume 2

Crystal Clear, Vol. 2 supplements the first volume. It identifies an additional 172 crystal radio sets, 91 crystal detectors and 26 crystals by manufacturer, model, year produced, description and original selling price. Further research on many of the crystal sets covered in Volume 1. Detailed history on the Philmore Manufacturing Company and the Western Manufacturing Company. 8 1/2" x 11", 252 pages.

\$29.95 – Softcover

Everything stocked and shipped promptly — Radio is our middle name.

Order today. We gladly accept:

\$3.00 shipping & handling on all U.S. orders (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Non-U.S. orders, write for shipping costs, or use credit card. Most orders shipped by next business day. If using credit card, include name on card, card number and expiration date. Send payment with order. New York residents must add sales tax.

PAYMENT. Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA, MasterCard, American Express or Discover. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or our secure website. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by credit card via our secure website or send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax. For your protection, please no credit cards by e-mail, use our secure website only.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the last day of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see Payment" paragraph above for details. Late ads will be run only if space and time permit. **Originals must be the artwork size listed below.** Send all artwork via e-mail or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add \$16.00 per photo for screening unless part of an existing electronic ad. **Do not cut or trim photos or glue photos to artwork; submit separately.**

If you are confused by these requirements and terms, please

contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/16-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

Page	ARTWORK SIZE (SEND IN THIS SIZE)		As Printed (size in magazine)	
	H x W (inches)		H x W (inches)	
Full	7 3/4 x 4 3/4		7 3/4 x 4 3/4

A.R.C. RATES & POLICIES

CLASSIFIED ADS • DETAILS AND RATES

ONE FREE 50-WORD AD for subscribers in each issue; additional words are 10¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted. Free ads are OK via e-mail but for your protection, please use our secure website for longer, paid ads.

Faxed & e-mailed ads: Please see additional information on opposite page.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive months) up to your subscription expiration; 12-months, maximum) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, l and I (the number one, the capital i and the small L). Also: 0, O, o, Q and D; v, r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and z; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets] in ads.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Classified ads must have a standard heading such as WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE. This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address are required in all classified ads; we will add it if you forget.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 50 words may not be used for club activity ads. A discount on display advertising is available for clubs.

Classified Ad Rates per Month

Deadline: NOON ET– 10th of the month!

Subscribers (First Ad):

First 50 words: **FREE!**

10¢ per word for words over 50

Subscribers (Ads after first ad):

10¢ per word for all words

Non-Subscribers:

30¢ per word

Please do not forget to send in the extra 10¢ per word when your classified ad runs over the free 50 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

PHOTO & DRAWING DETAILS

**Deadline: 1st of the month
for all ads with drawings or photos!**

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

\$10.00 per month for each photo or drawing
(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The standard headings: WANTED, FOR SALE, etc., count as one word each time used in an ad. Name, address and (one) telephone number, count as 6 words, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address are required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

DO YOU KNOW YOUR A.R.C. SUBSCRIBER BENEFITS?

Since becoming publisher I've asked many of our subscribers about the benefits that come with a subscription to *Antique Radio Classified*.

These have included both our print subscribers as well as our online edition subscribers. The only difference between the print and online subscribers is that the online subscribers pay a reduced subscription rate and don't receive the print magazine.

Many of the people I spoke with didn't know about our subscription benefits.

Let's take a look at them:

ABILITY TO LOOK AT THE MAGAZINE ONLINE

As a print or online subscriber you can look at the latest issue of the magazine online on our web site. This is the entire issue of the magazine and not an abbreviated edition. Subscribers can look at the last four issues of the magazine. Non-subscribers can look at earlier editions of the magazine at no cost.

One advantage of the online edition is that any photograph sent to us in color is posted in color!

ABILITY TO LOOK AT PAST AUCTION RESULTS

Almost every month we publish auction results in the magazine. Did you know that we have a database of the auction prices online on our web

site? Subscribers can look at the auction results and they are **SEARCHABLE!** If you want to see if a specific radio, piece of equipment, tube, magazine, etc. that has been sold, all you have to do is enter the item and see every time the item has been sold as well as the price, auction house, and date!

ABILITY TO LOOK AT ONLY THE CLASSIFIED ADS

Subscribers can also look only at the classified ads without downloading the entire magazine. This is very useful for readers who just want to read the classified ads. Readers with dial up Internet service will save a lot of downloading time.

FREE MONTHLY CLASSIFIED AD

Each month a paid subscriber is entitled to place a free classified ad in the magazine. The classified ad can be up to 50 words. Additional words are 10 cents each. Classified ads can be submitted by email, fax, or mail. Typewritten preferred to reduce possible errors. Name, address and telephone number count as 6 words. Full name and address are required in all classified ads.

Of course the most important benefit to the subscribers of *Antique Radio Classified* are the articles containing information that will help you in increasing your knowledge of our hobby.
