**ELECTRICAL PARTS LIST**

**NOTE:**

- Items marked "\*" are not stocked since they are seldom required for routine service. Some delay should be anticipated when ordering these items.
- If there are two or more same circuits in a set such as a stereophonic machine, only typical circuit parts may be indicated and capacitors and resistors in other same circuits may be omitted.

**CAPACITORS:**

MF:μF, PF:μPF.

**RESISTORS:**

• All resistors are in ohms.

• F : nonflammable

**COILS:**

• MMH : mH, UH : μH

**SEMICONDUCTORS:**

In each case, U : μ, for example:  
UA...: μA..., UPA...: μPA..., UPC...: μPC,  
UPD...: μPD...

The components identified by shading and mark ▲ are critical for safety.  
Replace only with part number specified.
