

# CHASSIS R17A6 R16M6

TYPE - Chassis R17A6 (with mechanical pushbuttons) and R16M6 are four-tube automotive type tuner chassis. Each contain an RF amp, converter, IF amp, detector and 1st AF amplifier stages.

Each Tuner Unit above must be used with a separate Audio & Power Unit (Motorola Models P6-2 or P8-2) to form a complete radio receiver.
