

Coils L1, L2, L3, L4, comprise Black and White spot coil.

D.C. voltages are measured from the point indicated to earth.

A.C. voltages are measured between the points indicated.

All voltages indicated are measured with switch in maximum position.

All measurements taken with a 1,000 ohms per volt meter.

### 4/5 Valve A.C. Broadcast.

I.F. 460 Kcs. Wave Band: 1400 to 550 Kcs. Spkr Field: 1,250 ohms.  
Align. Frequencies: 1500 and 600 Kcs.
